EDUCATION

Indian Institute of Information Technology, Nagpur

Nagpur, Maharashtra, India

Bachelor of Technology – Computer Science and Engineering; CGPA: 7.05/10

2023 – Present

Courses: Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks

Sanskar Public School

Gwalior, Madhya Pradesh, India

Senior Secondary (XII), CBSE Board; 81%

2022

St. Paul's School

Gwalior, Madhya Pradesh, India

Secondary (X), CBSE Board; 88%

2020

EXPERIENCE

Simply Softwares Pvt. Ltd.

Remote

Software Development Engineer (SDE) Intern – Backend

Jun 2026 – Aug 2026

- Built and integrated production REST microservices in Node.js, collaborating closely with senior engineers in bi-weekly sprints to unblock core features.
- Profiled backend bottlenecks and optimized database queries, cutting average API response times by 20% while adding automated integration tests for critical endpoints.
- Provisioned AWS EC2 hosting environments with PM2 process managers and Nginx reverse proxies, building GitHub Actions workflows for automated zero-downtime deployments.

TECHNICAL SKILLS

Programming Languages: C, C++, JavaScript, TypeScript, SQL

Frontend: HTML, CSS, Tailwind CSS, React.js, Next.js

Backend: Node.js, Express.js, REST APIs, OAuth 2.0, WebSockets

Databases & ORMs: MongoDB, PostgreSQL, Prisma ORM, Drizzle ORM, Redis

Cloud & Deployment: Vercel, Render, Cloudinary, Docker, AWS, Nginx, PM2, CI/CD Pipelines (GitHub Actions)

Tools: VS Code, Git, Postman

PROJECTS

QuickConnect [Live Demo](#) | [GitHub](#)

Jun 2026 – Jul 2026

Tech: Next.js, Node.js, Express, Socket.io, WebRTC, PostgreSQL, Prisma, Redis

- Developed a full-stack collaboration platform featuring group messaging, media sharing, and low-latency peer-to-peer WebRTC voice/video channels.
- Implemented session management via HTTP-only JWT cookies, Argon2id password hashing, and a Redis-backed OTP delivery queue using Resend.
- Integrated Redis Pub/Sub adapters with Socket.io to synchronize active connection state across multi-instance Node.js processes querying PostgreSQL via Prisma.

IIIT Nagpur VMS [Live Demo](#) | [GitHub](#)

Dec 2025 – Feb 2026

Tech: React, TypeScript, Node.js, Express, PostgreSQL, Prisma ORM, Google OAuth

- Designed a role-based visitor management system supporting 6 access tiers (Admin, Warden, Guard, Faculty, Student, Visitor) with custom dashboard views.
- Automated hostel compliance workflows for 400+ residents, handling leave authorization lifecycles, entry/exit timestamping, and 9:30 PM curfew infraction logs.
- Added dual-checkpoint QR code entry verification, guest walk-in kiosks, real-time campus occupancy tracking, and one-click emergency broadcast triggers.

Expense Tracker [Live Demo](#) | [GitHub](#)

Jul 2025 – Aug 2025

Tech: React, Node.js, Express, MongoDB, Chart.js, ExcelJS, Cloudinary, Resend

- Built a responsive personal finance manager with secure JWT authentication, password resets via Resend, and cloud receipt storage with Cloudinary.
- Created interactive breakdown charts with Chart.js to visualize category expenditures, net cash flow, and monthly budget progress.
- Supported multi-criteria transaction filtering, inline ledger updates, and tabular financial statement exports in both PDF and Excel formats.

COMPETITIVE PROGRAMMING

- Solved 475+ algorithmic problems on **LeetCode**, focusing on DP and graphs, achieving a peak rating of 1657.
- Attained a rating of 1201 (Pupil) on **Codeforces** through consistent participation in competitive programming contests.

ACHIEVEMENTS

- Secured **2nd Place** at **Genathon** (IIIT Nagpur's flagship national hackathon) in the Web Track for pitching and developing the **Visitor Management System** prototype within a 48-hour sprint.
- Qualified for the **Prototype Demonstration Round** at the **Adobe University Hackathon**, advancing past hundreds of teams through the algorithmic and initial development stages.
